Laptop Lock(CSK-LL10) User Guide

- Anti-theft lock for laptop that uses USB port
- Any laptop equipped with USB port (Type A)
- Especially for slim laptops not equipped with security slots

1 Check for compatibility

⦿ Check USB ports

Check to see if the USB port has two holes(see diagram)
(USB port must have holes to be Laptop Lock compatible)

⦿ Notice

- ① Please read user guide carefully before use
- ② We are not responsible for lost combination
(Record your combination in a safe place)

※ We are not responsible for any damages to USB ports or laptops due to misuse or user error (No warranty will be provided)

2 Setting combination

- ① Initial default combination is 0-0-0-0
- ② Turn the shackle 180 degrees according to the diagram, then press the shackle in direction of arrow

- ③ Set your new combination with shackle pressed in

* When changing combination, for easy setup, place the shackle upward (see left)

* Not possible to reset lost combination

3 How to use with a laptop

Ⓢ Installation (Locking)

- ① Put security cable in the shackle
(Before doing so, connect security cable to a fixture)

- ② Select USB port to install Laptop Lock

- ③ Insert Laptop Lock into the USB port, press the shackle in

- ④ Scramble dials to lock
(Dials will not turn if the shackle is not pressed in)

© Unlocking

- ① Turn dials to your combination, pull the shackle out

© Installing security cable

- ① Attach security cable to a fixture and pull through the other end

- ② Put security cable in the shackle

- ③ Insert Laptop Lock into the USB port
